PRINCIPAL'S MESSAGE

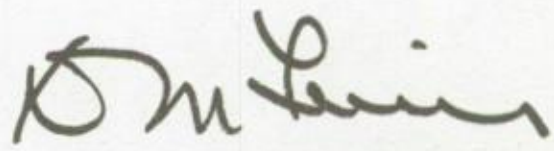
To The Graduates of June, 1972:

Graduation marks a dividing line in your life. Like all such occasions, it is a time for reflection providing an opportunity to look back to where you've been and forward to where you are going.

The path that you have been following up to now has had relatively few branches and you've moved along it with the willing help of teachers, counselors and advisers. It has been a road about which you have had relatively little to say. With graduation, you move onto a new road which will have many branches and the choices and decisions will be largely up to you. More and more you will be your own guide, adviser and teacher; more and more you will be responsible for the decisions you make and for the results of those decisions.

The two roads, however, are not distinct and independent of each other. The future flows from the past. On your path through Walton, we have tried to provide you with the knowledge and ability to move with assurance into the future. We hope we have given you a sense of confidence in yourself as an individual and as a member of society, an awareness of the world about you and an understanding of other peoples in it, and an appreciation for education and intelligence and a desire to continue to learn and grow regardless of the path you follow.

The Walton community and I wish you well on the road of your future and trust you will look back with pleasant memories and understanding of Walton High School.



From shelter and warmth I came
To travel many paths.
'Twas the one with the fork
which has made me a wiser woman . . .

Andrea Mahee
